Mines and Mining Stocks | Financial and Commercial

RUSHING WORK

Bullion Production and Shipment Waiting on Completion of Traction Engine Road.

Another shift is to be put on at the Honerine company's mill at Stockton during the present week and the plant will then be handling a pretty large tonnage, possibly 300 tons a day, and turning out close to 100 tons of concentrates. Since starting up the mine and mill a few weeks the property has been brought up to ago the property has been brought up to a production of approximately 400 tons of crude ore a day. The major portion of this has been going direct to the smelters, the balance to the mill for treat-

It has been found to be no easy mat-It has been found to be no easy matter to secure a large force of competent men for the mine but, day by day, the number has been added to and the men who have been taken on have been of a class that is a credit to any mine. Mine Manager W. K. Mordock has the situation now well in hand and the increased tonnage that the placing of another shaft on at the mill will call for can easily be supplied. The old Honerine is just beginning to show what it can do. At the end of the first sixty days' run the shareholders will begin to appreciate what the first sixty days' run the shareholders will begin to appreciate what the holders will begin to appreciate what the long siege of development and construction was carried through for.

Park City Shipments.

Shipments of crude ore and concer
trates from Park City during the pas
week, as reported by the different sam
pling mills at camp, amounted to 4,024,86
pounds, as follows:
Silver King
Daly-West 950,00
Daly-Judge
Daly-Judge middlings 258,00
Kearns-Keith 101,00
Little Bell 420,00
Total4,024,80

RAILROAD NEARING ELY.

Trains Said to Be Running to Within

Twenty-two Miles. George E. Gunn, general manager of the Cumberland-Ely company's properties. George E. Gunn, general manager of the Cumberland-Ely company's properties, came in from Ely yesterday morning, after a several weeks' stay at camp, where he has been crowding the work of development through the several shafts that are being sunk on the property. He is much pleased with the progress that is being made and the character of the ore that is being opened up.

Mr. Gunn states that construction trains on the Nevada Northern railroad are now being run to a point within twen

Did the wind and rain bother you the other day? A Malthoid roof won't stand any monkey business from them.

(Malthoid lasts a lifetime.

MORRISON, MERRILL & CO.

28 Main St.

to pay its preferred stock dividends and a substantial dividend on the common states that it will not be many weeks till the road's destination will be reached. It was reported here that Mr. Gunn had left Ely and gone to Yerington to look over the Mason Valley Copper company's mines and note the progress of development, but that, he says, was a mistake. He has not been away from Ely for several weeks, and will not be able to go over to the Mason Valley properties until about the end of the present month.

to pay its preferred stock dividends and a substantial dividend on the common stock.

"It will take two years to work this out because the whole proposition has to be decause the whole proposition has to be deause the whole propositio

Ore and Bullion.

Ore and bullion settlements in this city yesterday, as reported by McCornick & Co., amounted to \$49,500, as follows: Silver, lead, gold and copper ores, \$21,500; base bullion, \$28,000.

Metal Markets.

Silver—64%c per ounce. Copper (casting)—183-16c per pound. Lead—\$5.75 per 190 pounds. MILLIONS IN TAILINGS.

East Bufte Lessees Erect Plant to

American's Garfield Plant Cannot Start for a Week Yet.

The American Smelting company did ont get ready to begin the feeding of ore into the furnaces at the new Garfield plant yesterday, as expected. The warming up process and trying out of furnaces and flues is still progressing and the calculation is that, nothing unforeseen happening, the first charges of ore and fluxes will be tried out on Monday next. As has been many times explained in this department, the blowing in of a new smelter is not accomplished in a day, week or month. It takes time to place such a plant as that of the American company in full working order and, while no estimate of the time that will be there required has been stated, it will likely take a month or two, maybe more, to get the monster works working at capacity.

Mining Notes.

General Manager Harry L. Charles of the Bingham Consolidated returned from a brief business trip to Butte yesterday

Four carloads of ore from Nevada and two each from Bingham, Alta and Stock-ton were reported at the Pioneer sampler

The report comes from Butte that F. A. Heinze is now negotiating for the Rex group of mines in the Coeur d'Alenes, in addition to the Stewart group, which is said to have already acquired.

Scortstand W. Lembary and the Dale heat of the day was responsible to a

passed through the city yesterday on his way from Denver to Nevada, where he has gone on professional business. J. W. White, formerly master mechanic

A bulletin from Boston over the Pollock private wires yesterday said: "The statement comes from high officials of Butte Coalition that a large body of copper ore has been located in the Alice property and the company will soon begin work on it."

relopment that is being so vigorously carried on out at the property. That he will have anything particularly new to report, Manager Darmer does not believe.

A reassuring effect was profinety days, 4½44% per cent; six months, and the property of the adequacy of resources to meet the coming demand for moving the campaign at the relation of the adequacy of resources to meet the coming demand for moving the campaign at the relation of the adequacy of resources to meet the coming demand for moving the campaign at the relation of the adequacy of resources to meet the coming demand for moving the campaign at the relation of the adequacy of resources to meet the coming demand for moving the campaign at the relation of the adequacy of resources to meet the coming demand for moving the campaign at the relation of the adequacy of resources to meet the coming demand for moving the campaign at the relation of the adequacy of resources to meet the coming demand for moving the campaign at the relation of the adequacy of resources to meet the coming demand for moving the campaign at the relation of the adequacy of resources to meet the coming demand for moving the campaign at the relation of the adequacy of resources to meet the coming demand for moving the campaign at the relation of the adequacy of resources to meet the coming demand for moving the campaign at the relation of the campaign at the Dr. R. B. Wetherell and William F. Stillwell of Lafayette, Ind., who are largely interested in the Black Diamond largely interested in the Black Diamond of Stockton, were in the city yesterday on their way back home from a trip through the Yellowstone park. They did not find time to visit the property, con-tenting themselves with a statement from Manager W. C. Alexander concerning con-

James Hickey, formerly superintendent of the Comstock at Park City, but who has been in Nevada since February last, is in the city to tide over the hot spell. A little later he will put out for the Bullfrog country, with which he is greatly impressed and which he declares is going to make a noise in the world with the completion of the Clark road to Rhyolite. Lack of ties, he says, is holding back the tracklaying of the remaining few miles, but they are expected to reach Las Vegas any day. When Mr. Hickey left here attack of bronchitis. The warm, dry atmosphere at Vegas has done wonders for him and he is now feeling better than he has in a long time. Mr. Hickey expects to remain in the city until possibly the end of the present month.

SHOWS STRENGTH

Uplift of Prices at the Opening and Large Volume of Business Transacted.

ANOTHER RISE DURING THE LAST HOUR.

stocks started the week with a buoyant uplift in prices before the impelling force of buying which showed every sign of eagerness to secure stocks even when the advance in the bid made it necessary to bring out offerings. The when the advance in the bid made it necessary to bring out offerings. The early dealings showed no remains of the disposition to realize profits which characterized the closing dealings of last week. Instead of that the market seemed bare of stocks at the prices present of the stocks at the stocks Manager M. J. McGill of the New York Bonanza came down from the Park last evening to attend the regular monthly meeting of directors that is scheduled for great volume of stocks changing hands. seemed bare of stocks at the prices pre-vailing on Saturday and the wide opengreat volume of stocks changing hands.
The advance was continued quite Manager Tony Jacobson of the Columbus Consolidated has returned from a two days' trip to the properties of his company highly pleased with the manner in which everything is moving.

The advance was continued quite briskly during the course of the first hour. There was an abrupt falling off in the volume of trade at that time and brokers on the floor were almost idle Secretary G. W. Lambourne of the Daly-Judge company returned yesterday noon from a two days' trip to the mines and milling plant of the company. He reports everything to be running smoothly and the mine looking fine.

Auguste Mathematical acquired.

heat of the day was responsible to a large extent for the langour of the market. The tone was noticeably firm in spite of the almost total cessation of the buying, dealing being limited to smallest fractions inevitable in a pracsmallest fractions inevitable in a practically stagnant market. In was this Auguste Mathez, the veteran mining engineer who recently returned from a long pilgrimage through Central America, prompted the traders to renew the adversed through the city vesterday on his vance in the last hour.

A considerable distribution effected

at the high opening level which reprefor the Ontario company, has gone to Park City to install the new compressor plant at the Little Bell, the machinery for which has all been landed at the stirring the speculative spirit outside

Metal Markets.

New York, Aug. 6.—The London market was closed again today and trading here of Wall street, and commission houses had more orders to execute than at any time since the recent professional movement was initiated. The London stock market was closed in continuation of the holiday which began on Saturday. Foreign arbitrage houses were among the large buyers of stocks, however, and these were supposed to be purchases for foreign account. The continental markets reflected increased confidence over the situation of affairs in Russia. Discount rates, however, in the open market rose, both in Paris and Berlin. Foreign exchange rates here at the seme time hald for the strength of the str Manager P. J. Donohue of the Standard Copper company's properties spent Sunday at the company's Bingham mines. He has directed the cleaning out of the old tunnel workings on the Little Treasure and it is possible that developments will be prosecuted through that tunnel rather than the Deems, as he has figured upon doing.

The big men in doing.

J. D. Hawkins, one of the big men in the United States Reduction and Refining company of Colorado and a prominent shareholder in the Utah Copper company, is over from Colorado and, in company with General Manager D. C. Jackling and Mill Superintendent Frank G. Janney, he was yesterday inspecting the big mill of the company, at Garfield.

Superintendent H. M. Eakin of the May

Superintendent H. M. Eakin of the May Superintendent H. M. Eakin of the May Day will come in from camp today for a brief respite from the dally grind at the mine and to confer with Manager J. E. Darmer concerning the campaign of deduced by statements from Washington 5½ per cent. treasury resources for rengering assistance to the fall money market. Rates of interest were strongly held and the supply offering was said to be diminishing. The failure of a bank in Chicago was without effect on stocks Railroad traffic officials united in declaring that there never was a time when there was so heavy and diversified a demand for all kinds of mer-chandise. Substantial net gains on the

GRAIN AND PROVISIONS.

Chicago, Aug. 6.—Complaints that wheat is sprouting in the shocks in the southwest caused a strong tone in the local market today. At the close September; wheat was up %c. Corn was up %d%c. Oats showed a gain of %c. Provisions were 2½@5c higher.

Wet weather in the southwest was the cause of active buying of wheat by shorts as a result of which the market ruled firm all day. Rain, it was claimed, is causing damage to the winter wheat crop, In addition to the demand by shorts several of the leading bulls bought freely. A feature of the day's news which was favorable to the bulls was a decrease in primary receipts, total arrivals today be-A feature of the days news which was a favorable to the bulls was a decrease in primary receipts, total arrivals today being 1,407,000 bushels, compared with 1,422,000 bushels the corresponding day a year ago. At the start the market was bullishly affected by small local receipts. The market closed strong. September opened a shade to ¼@%c higher at 72@72½c, sold off to 71%c, then advanced to 72%g.675%c, where it closed. Clearances of wheat and flour were equal to 311,900 bushels. The visible supply increased 1,303,000 bushels, and the amount on passage decreased 640,000 bushels. Minneapolis, Duluth and Chicago reported receipts of 553 cars, against 1,099 cars last week and 491 cars a year ago.

The corn market was weak early in the day on selling, induced by rain in Illinois. There was also an official forecast of more showers tonight, which caused increased selling. Later the market rallied

in sympathy with the strength of wheat, shorts being lively bidders during the last hour. The close was strong. September opened 1/201/4c lower at 47%c, sold off to 48%c, rallied to 49½c, and closed at 49%c. Local receipts were 110 cars, with 42 of contract grade.

Oats were a trifle easier at the start, but quickly rallied and ruled firm the remainder of the day. The main influence was the late strength of wheat and corn. Fear of damage by wet weather caused some apprehension among shorts. September opened unchanged to 1/201/2c lower at 30%/2030%c, sold between 30½c and 31½c and closed at 31½c. Local receipts were 31 cars.

Provisions were easy early in the day on

31 cars.

Provisions were easy early in the day on selling brought out by a five-cent decline in the price of live hogs. Later the market became steady on buying of lard and ribs by a prominent commission house. At the close September pork was up 2½c at \$17. Lard was 5c higher at \$8.90. Ribs were 2½c higher at \$9.22½.
